Port Authority To Earmark \$40,000 For Local Port

Local Officials Hoped For \$80,000 For Construction Of First Phase

Palm Beach Port Authority officials, who met with a local group in afternoon and evening sessions last week, promised \$40,000 aid to the proposed local port on the island lying south of the private port operated by South Bay.

Billy Burns, port commissioner, and Capt. Bishop, port manager, told local leaders that the sum will be included in the budget for this year to be drawn in June whether or not Bishop is reelected to the post.

Cattlemen Discuss Changing Date Of Livestock Show

County cattlemen discussed the possibility of changing the date of the Southeast Florida Livestock Show from April 1 to January at a meeting of the Palm Beach County Cattlemen's Association in the city hall Tuesday night.

Reason given for the proposed change was the date was that more numbers of people and cattle want to get their animals into pastures by mid-March, and holding their cattle for the April show prevents this. Most live-stock shows are held during the mid-winter period.

FIRE DESTROYS HOUSE IN OSCEOLA CAMP THURS.

Flames destroyed all but the skeleton framework of house #6 located in the back row of buildings in Osceola Farm Labor Supply Camp about 9:35 Thursday morning.

A broken water main in that vicinity held up fire fighting operations for about seven minutes after the fire Department's big truck pickup truck and a train of the Experimental Fire Control District arrived on the scene.

The main was broken earlier in the morning when a truck ran over it, and the water had been turned off temporarily until the main could be repaired.

Members generally discussed measures they could take to get the Six-Mile Bend bridge "death trap" eliminated.

GENUNG TO SPEAK ON POTATO TUBER MOTH

William G. Genung, assistant entomologist at the Everglades Experiment Station, will speak "Control of Potato Tuber Moth at Harvest Time," on the Station's weekly broadcast Saturday morning.

CATTELEMEN DISCUSS

(Continued from Page 1)

It was decided that a decision on the proposal would be made after it has been thoroughly investigated.

Dr. L. S. Swanson, Gainesville, parasitologist of the Veterinary Science Dept., Agricultural Experiment Station, spoke at the meeting. He emphasized that control of the parasite problem lies in proper pasture management.

Pointing out that an ounce of prevention is worth a pound of cure, he said that for cattle, Dr. Swanson made several recommendations for controlling parasites in cattle.

He said:

"Watch cattle closely for symptoms of internal parasites and when discovered, inspect the whole flock; separate age groups; don't let them eat too close grazing when cattle are apt to pick up parasites, for this reason carpet grass is undesirable; fence off wet areas and ditches; don't wear calves too abruptly but start creep training young so it won't be a shock to them when taken off of milk."

He said the University of Florida is starting a research program on treatment methods working with boluses and droppers.

Assistant County Agent H. L. Speer gave a report on the West Palm Beach Livestock Show held here last week.

received a medal and a cash prize of \$200.

Subject of the sermon was that the American concept of freedom for the individual was the outgrowth of the Jewish-Christian doctrine of man's dignity as the child of God.

To Prevent a Citizen's Being Held In Jail Indefinitely Without Trial and Without Bail!

In February, 1942 (the big majority of those arrested were Negroes, and Negroes could not vote in the City Primary,) because of conditions existing in West Palm Beach, the following three city ordinances were conceived by Judge Lake, drafted by him, presented by him and their enactment into law obtained by him and without compensation to him, and at considerable political risk to himself, then an opposition candidate for reelection in March. His duties as municipal judge did not call for this service.

Judge Lake chose February when both hesitate to openly fight the enactment candidates for Chief of Police would of these laws. These laws yet protect you as sections 27.16 to 27.22 inclusive, 1948 West Palm Beach Code. Pertinent parts are quoted:

ORDINANCE NO. 183:

"Section 1. It shall be the duty of the Chief of Police to furnish to the Municipal Court such regular and individual reports in full of all arrests as the Municipal Court shall require. Such reports shall be made in the form and manner and at such times as specified by the Court."

To prevent a citizen's being held in City Jail Indefinitely under the sometimes made claim that he was being held for County authorities was

ED LAKE

(Continued from Page 1)
the Canons of Ethics governing judges in this state, and the protection of inheritances and property rights from excessive fees.

Judge Lake has been engaged in the practice of law in West Palm Beach for more than 42 years. He was Municipal Judge of West Palm Beach from 1936 to 1948, except for three years with the U. S. Marine Corps. There he received a letter of commendation for ability and fairness both as judge advocate of Party Island and as a trial lawyer, something overseas at his own request.

He retired undefeated and unopposed in 1948, becoming Judge in 1949, losing by a narrow margin in a race exceeded in votes only by the sheriff's race.

Without compensation he was the author of a number of City Ordinances yet on the books, a claim which he made in his political advertisement in this issue and the ordinances prohibiting the purchase of articles from minors by second hand dealers without their parents written consent.

A graduate of the University of Florida Law School, he is also a member of the State and County Bar Associations, American Legion, Veterans of Foreign Wars, Elks Club, and Exchange Club. He is a member of the Court Advisory Committee of the Palm Beach County Bar Association.

JUDGE ROBBINS

(Continued from Page 1)
county court is one of the three most important in the state including the probate court and rulings on all types of cases, including sanity hearings. Through the new public health law, the county judge has the power to order detention of tuberculosis patients in a state hospital until they are cured.

Believing that the judgements of the courts require the term "probate" with law, Judge Robbins gives his past record of service as the people's guarantee of fair, conscientious administration of the court.

His active interest in the welfare of children led him to help to sponsor the County Children's Home in 1926. He served as a member of the drafting committee of the Florida Bar which drew the law creating juvenile courts in every county in the state.

Judge Robbins' activities include services on the committee of the Florida Bar Association for probate practice improvement for three terms; member of the Bar of the Supreme Court of the United States; member of the State of Florida; member of the Palm Beach County, Florida, and American bar associations. He served in both World Wars as a pilot.

A native Floridian, Judge

Robbins was educated in state schools and attended Stetson University and the University of Florida.

LOCAL STUDENT

(Continued from Page 1)
made visits throughout the district last week before returning Monday to Florida State University, Tallahassee, where he is a student of public administration.

Ball is running as an unpledged delegate.

"I am running unpledged because I want to represent the people of this district fairly at the convention. I am pledged to qualify by March 15 only four months before the convention."

"The increasing power of the Florida delegation will be increased greatly by including unpledged delegates. A delegation solidly pledged to a single candidate is excluded from many conferences, but a delegation of solidly pledged candidates will be given consideration by all groups. Only in this way can we spotlight the wishes of the people of Florida."

Born in West Palm Beach in 1930, Ball attended Belle Glade High School where he was class manager of the school annual, delegate to Boys' State and recipient of the American Legion citizenship award as a senior and in the ninth grade.

He will receive his degree in Public Administration at Florida State this spring. At that institution Ball has been president of the national leadership honorary, Omicron Delta Kappa, president of the public administration honorary, Pi Alpha Sigma, and chairman of the club recognized in "Who's Who in American Colleges and Universities," member of Gold Key honorary; president of the Rifle Club and vice president of Kappa Alpha fraternity.

Two women and six men are running for Democratic delegates in this district.

BRADLEY ODHAM

(Continued from Page 1)
tours in the state's history, Odham has gained notoriety through his strong opinions, answers and answering questions on the spot without the traditional, prepared political addresses.

"I cannot be bought, bossed or bluffed," said Odham firmly. "My political interests are backing his opponents whom he termed 'the gold dust twins.' He labeled Alto Adam's campaign Caldwell backed and Dan McCarty's race was nothing but a racket-lusting campaign. Odham mentioned the bribery case when as a first-termer in the state legislature in 1947, he charged a fellow sojourner with trying to buy

his vote against the anti-bookie bill. Three years later, as president of the State Junior Chamber of Commerce, he helped to work with legislators to push anti-gambling legislation in the 1951 session.

The outspoken candidate said, "The gamblers and racketeers are against me, and I'll run them out of the state if I have to put them in jail myself."

Shifting to another of his platform planks, Odham said everyone should pay equal property taxes pointing out that cattlemen should carry more of the load.

Following his usual procedure, Odham opened his 15-minute appearance here to questions.

A member of the audience asked, "If you are elected governor, will you give the punch bowl back?"

Said Odham, "If I find anyone operating punch boards, I will put them in jail or under the jail myself if necessary."

Before the talk here he spoke in LaBelle, Clewiston, and South Bay.

His stamping tour in the afternoon included talks in Pahokee, Lake Okeechobee, Lake Placid, Sebring and Avon Park.

PORT AUTHORITY TO

(Continued from Page 1)
items here with the introduction of water freight. He said it would be invaluable to new Glades industries such as fiber and rice operations.

Long range port plans drawn up by John T. Pickett call for an expenditure of about \$265,000. It was hoped here that \$80,000 would be expended in the first building phase.

Authority officials also told the reporter that the port would not require essential materials although the original plan included steel bulkheads.

They promised that port engineers, H. M. Tschirgi and H. C. Gee, would be here this week to draw plans for the amount to be spent.

In the afternoon the meeting included an inspection of the proposed port site, and the evening dinner session held at Bell's Restaurant was a business meeting.

Attendance at the meetings were Howard O. Eastwood, Walter Ashley, Junius Harris, George Young, Mrs. George Young, Herman Close, H. O. Carlton, R. E. Hotard and Bill Gabre.

Since a local delegation apparently had been granted the right to purchase the port site from the Internal Improvement Board, negotiations with the Authority to get aid and assistance on the port have been in progress.

It was pointed out to the reporter that taxpayers in the area had paid their taxes to the port district for 30 years and have never received a direct benefit.

LIVESTOCK MARKET

(Continued from Page 1)
comprised the city, spending \$215. J. W. Weeks of Pahokee, \$256. R. E. McConnell of Hobe Sound, \$279.

Showmanship contests held during the morning were won by Marvin Kavanaugh of Velva Haven Ranch, Delray Beach, in adult showmanship and by Don Deadwyler of Cornwell in 4-H and FFA competition.

Other showmanship winners in the junior contest after Deadwyler were Maynard Osborne, Fort Lauderdale, and Scott, Fort Pierce FFA; John Henry Thomas, Okeechobee FFA; Eugene Bailey, Fort Pierce FFA.

Following Kavanaugh in the adult contest were Pauline Farms, Uleta, Gulfstream Farms, Port Lauderdale, and Dunn Vanderlin Ranch, West Palm Beach.

Making his annual visit to the show, Nathan Mayo, commissioner of agriculture, complimented the 4-H boys and Future Farmers on the marvelous work they were doing for the industry.

He also commented on the amazing progress Florida has made in the breeding, raising and selling of beef cattle, "progress which has outshone all other states," he said.

After his short talk, a local 4-H Club girl presented the grand old man of agriculture with a rice pie, made by the local chapter of the Girl Scouts, symbol of the beginning of another Glades industry which might follow the growth pattern of cattle.
